GPSTC - Bay
1000 Indian Springs Drive,
Forsyth GA 31029
8:30 am to 4:30 pm

Hazardous Materials Symposium is a 14-hour course designed to educate community responders regarding regulatory hazmat requirements, standards, advances in response technology and available training. This course reinforces the importance to knowledge and skill required to safely and effectively respond to these incidents.

Topics covered include:

- Keynote: TBA
- Case studies
- Pipeline response
- Transportation response
- Fixed facilities response
- Technology – drones
- E-Plan
- Peak Plume Software
- Available Training

**Please note all attendees needing accommodations, should ontact GEMA/Training for hotel reservations.*
